

Florida Rugby Union Promotion/Relegation Policy

Teams may be promoted and/or relegated from their division based on these criteria

Relegation

- Failure to uphold and/or meet the required minimum standards for their given division of play, particularly forfeit of matches
- Average points differential loss of greater than 28 points for two seasons in a row against the top (4) teams within their division of play.

Promotion

- Average points differential wins of greater than 28 points for two seasons in a row against the top (4) teams within their division of play.
- A team may request to be promoted to the high level before the two year window if they are able to effectively show that their club standards are above and beyond the minimum required amounts for their division of play.

Appeals - these promotions and relegations are subject to appeal from the clubs, and the FRU board may advise against these measures to balance league competition numbers
